

November 23, 2016

Dear Members,

It's that time of year once again to send in our association dues for January 2017.

Let us be mindful that in doing so, CEU's are also required. When we tally our CEU's it is for the end of our triennium. That means we have to have 30 CEU's submitted by the end of 2016 (December 31st) for any & all continuing education units in order to remain as a registered Cardiology Technologist in good standing.

If you find yourself shy of a few CEU's, please contact any one of your board members, myself included to find quick & easy ways to acquire those CEU's needed. We will be more than willing to help you. Just a few suggestions would be to check our MACT & CSCT websites for any new & upcoming events, posted seminars, suggested &/ or related reading to cardiology studies. Attend rounds, sit in on lectures or read the New England Journal of Medicine, if possible. All of these will help you to accumulate the required CEU's needed to remain in good standing.

Our board met early this fall and chose April 22 as a tentative date for our upcoming AGM in 2017. Be advised that this date could change, so please keep checking our MACT website for updates as well as an early bird fee and late charges for registration.

As this is our first effort in going paperless, please forward any and all feedback to our board. We would like to eventually have everyone accessible via email & have you log in to our provincial website to inform yourselves of the necessary & updated information as time progresses.

This past October, I was fortunate enough to attend the CCC in Montreal where I had the pleasure of meeting some of our members & got to know them a little. It was here, I requested to have our CSCT education day seminars along with MACT AGM, be available on our website for all our members' viewing pleasure & CEU accreditation, (as I know it isn't easy for everyone to accumulate the required amount of CEU's each triennium.) This is something I have been working towards for some time.

We are now living in an electronic world which will help us save a little on expenses (postage, paper, etc). This will also allow for quick, easy & immediate payment of dues. If for any reason, you prefer to have your email removed from this list & request a paper copy of any further reports, please contact me immediately.

I ask that you all please be patient, as this is a learning curve for all of us. Any questions, concerns or comments can be directed to any of our board members. Please know my door is always open & my ear always available.

I wish you all a very Merry Christmas, Festive Holiday, safe & joyful season. All the best to you and yours for the New Year!

God Bless...

Respectfully,

Barbara Arora
